

JANUARY 2025

WELCOME TO OUR

Monthly Newsletter

we're so glad you're here!

A look back at December

The Legacy Therapy Dogs had a very busy and festive December. We continued our once a month visits to the ASPIRE Program at MHS! The students look forward to our scheduled visits and it is a great way to start the school day! We had the opportunity once again to visit with the students at Muscatine Community College for a special finals de-stress event! This was a great incentive for the students to take a break from their finals prep for just a short while. We also continued our monthly visits to not one; but two, Vera French locations. This is a great way for the residents to relax and unwind with our sweet pups! Several of our Therapy Dogs also attended the Port Byron Christmas Walk. The River Valley District Library was gracious enough to host us and it was so fun to see all of the kiddos and families in attendance. Our Therapy Dogs were also able to travel to Galesburg for a Fosters Voice Meeting at the Junior High. We love supporting mental health in our community and it was great to see the students relax and unwind with our dogs. Several of our volunteers made the trip to Spring Valley Illinois to visit with the students at Hall High School. This was just before finals started so it provided the students with an opportunity to relax and unwind during their lunch break. We also visited two different libraries for special Christmas reading events. The first was at the East Moline Library. This was such a fun event and it was great to see all of the kids in attendance. The next was at the LeClaire Community Library. This "Santa Paws" Storytime was a huge success! There were a lot of kids in attendance, but everyone was able to few stories to the Legacy Therapy Dogs.
